

SARAH & DUCK COLLAGE ART PROJECT

an invitation to create

An absolutely gorgeous, simple and accessible craft project for any home and classroom.

Simply print out the various background and character sheets provided, then set out the pages with the safety scissors and craft glue. Then just invite your child to cut, glue and layer up the elements to create their very own fun Sarah and Duck story, scene after scene.

Have fun.

Sarah & Duck

Collage can tell a story, reflect a mood, and open up your child's imagination. It is a great project for children to do independently or with a friend. There is no right or wrong way to collage. It's a free form craft. We do our best to focus on the process, not the product, though it's super great when the two collide.

Oh, and of course framing your child's masterpiece is always a special treat.
